

Hastings & Fraser Downs no longer on HPI West from Bell.

February 27th will be the last day that Fraser Downs will be available to our valued customers as we change the way we distribute our signal. The other pay per view channels from Bell will remain on the air. We invite you to watch our signal free of charge on either website. Just go to [www.fraserdowns.com](http://www.fraserdowns.com) or when Hastings starts up on April 16th, [www.hastingsracecourse.com](http://www.hastingsracecourse.com) to view racing from the West Coast. We thank those of you who subscribed over the years to races on the HPI west channel and we look forward to your continued support.
